

1.A computer mainly performs which function?

- A) Thinking
- B) Processing data
- C) Playing games
- D) Resting

2.A computer is which type of machine?

- A) Electronic
- B) Mechanical
- C) Analog
- D) Biological

3.The word 'Computer' is derived from which language?

- A) Hindi
- B) Latin
- C) Greek
- D) French

4.Which is known as the brain of the computer?

- A) RAM
- B) CPU
- C) Hard Disk
- D) Keyboard

5. Which of the following is NOT an input device?

- A) Keyboard
- B) Mouse
- C) Scanner
- D) Monitor

6. Which of the following is NOT an input device?

- A) Keyboard
- B) Mouse
- C) Scanner
- D) Monitor

7. In which field computers are NOT used?

- A) Banking
- B) Education
- C) Gaming
- D) Sowing crops

8. In hospitals, computers are used for—

- A) MRI
- B) Surgery robots
- C) Patient records
- D) All of these

9.E-commerce is related to—

- A) Online Shopping
- B) Computer Manufacturing
- C) CPU Designing
- D) Game Development

10. Which is NOT a characteristic of computers?

- A) Accuracy
- B) Speed
- C) Intelligence
- D) Storage

11. Why does a computer never get tired?

- A) It has no emotions
- B) It has more memory
- C) It is big
- D) It has a screen

12. Which is a disadvantage of computers?

- A) Slow
- B) Expensive
- C) Automatic
- D) Accurate

13. Which ability is NOT present in a computer?

- A) Calculation
- B) Logical thinking
- C) Creativity
- D) Data storage

14. A computer works on which principle?

- A) Logic
- B) Emotion
- C) Feeling
- D) Imagination

15. Analog computers work on which type of data?

- A) Continuous
- B) Discrete
- C) Binary
- D) ASCII

16. Analog computers are mostly used in—

- A) Scientific calculations
- B) Banking
- C) Gaming
- D) ALL

17. Digital computers process data in—

- A) 0 and 1
- B) Waves
- C) Images
- D) Temperature

18. Which of the following is a digital computer?

- A) Thermometer
- B) Calculator
- C) Speedometer
- D) Analog Clock

19. Example of hybrid computer—

- A) ECG Machine
- B) Calculator
- C) Desktop
- D) Laptop

20. Which is the smallest type of computer?

- A) Micro
- B) Mini
- C) Mainframe
- D) Super

21. Mainframe computers are used in—

- A) Large organizations
- B) Home
- C) School
- D) Gaming

22. Supercomputers are used for—

- A) Weather forecasting
- B) Typing
- C) Gaming
- D) Billing

23. Mini computers are used in—

- A) Home
- B) Small businesses
- C) Research labs
- D) Only scientific use

24. Which computer use in WAN ?

- A) Micro
- B) Mini
- C) Mainframe
- D) Super

25. Which of the following is a special purpose computer?

- A) ATM
- B) Laptop
- C) Smartphone
- D) Tablet

26. A laptop is which type of computer?

- A) Microcomputer
- B) Supercomputer
- C) Analog computer
- D) Hybrid computer
