OK Cancel

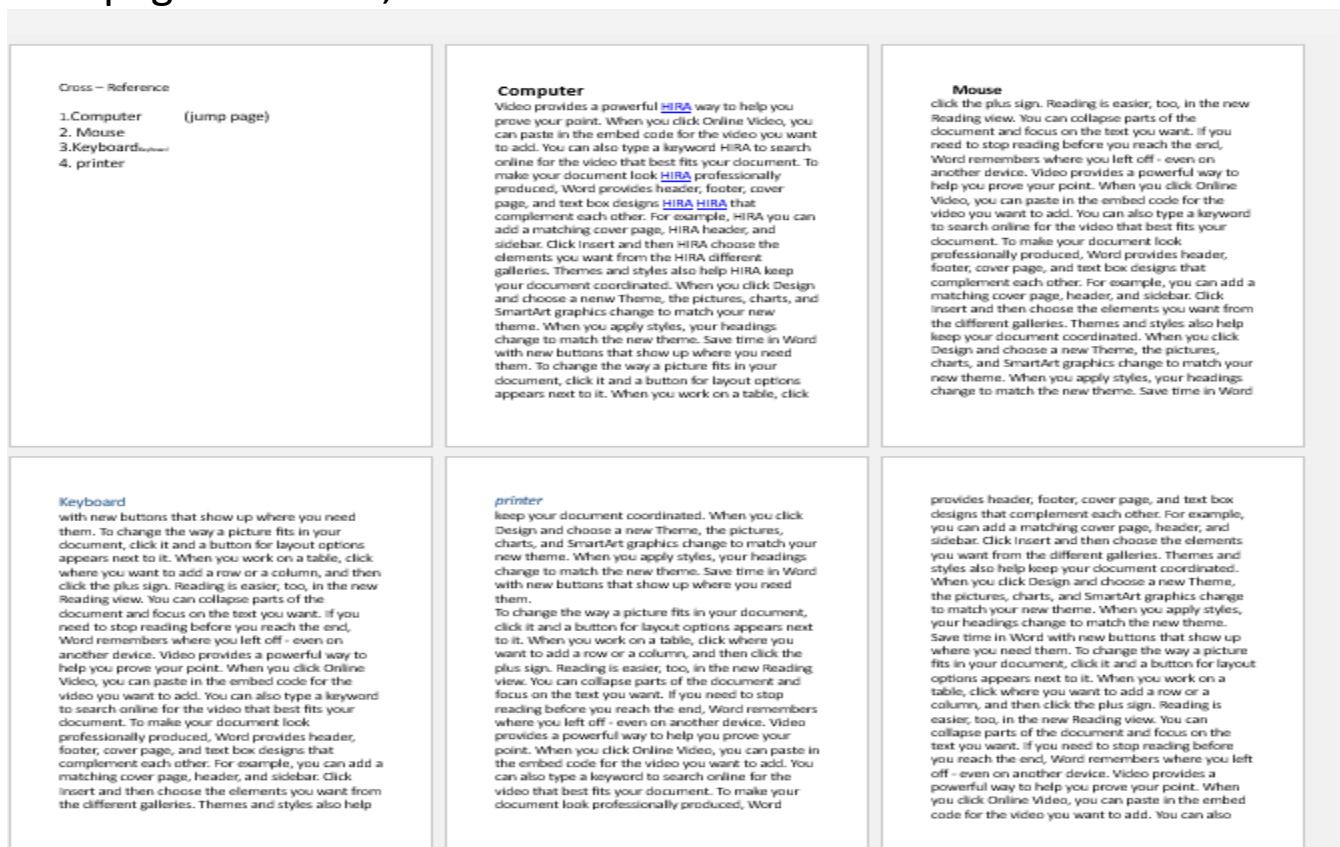

Bookmark

- Marks a specific location in the document
- Useful for jumping quickly to that place later.

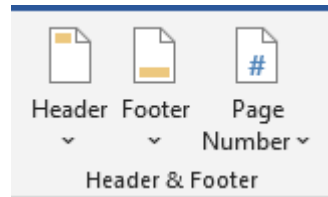

Cross-reference

- Insert a reference to another part of the document, such as: - Headings, Figures, Tables, footnotes/endnotes, numbered items, page numbers,...

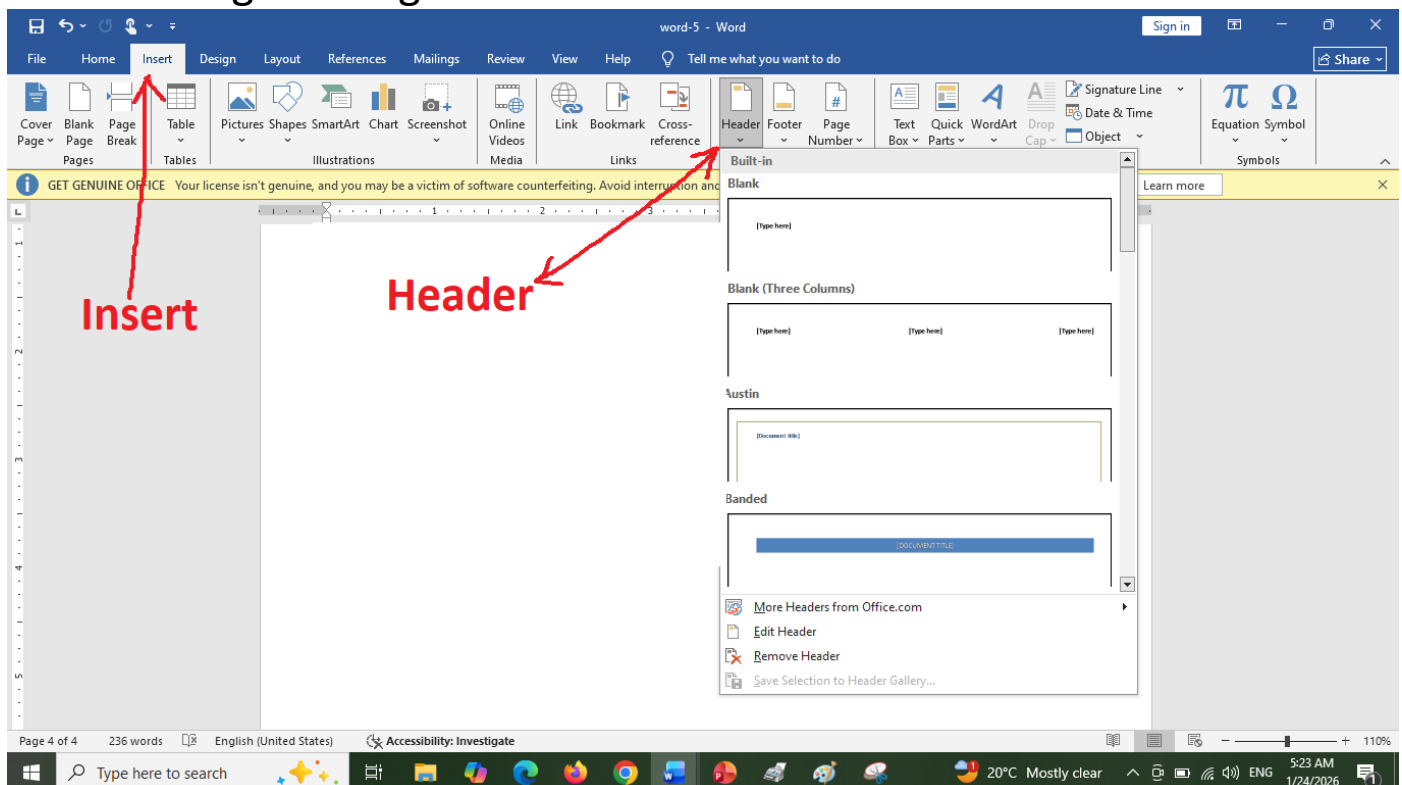

❖ Header & Footer Group

- It contains tools used to add information that appears at the top (header) or bottom (footer) of every page in a document – such as page numbers, dates, titles, or author names.

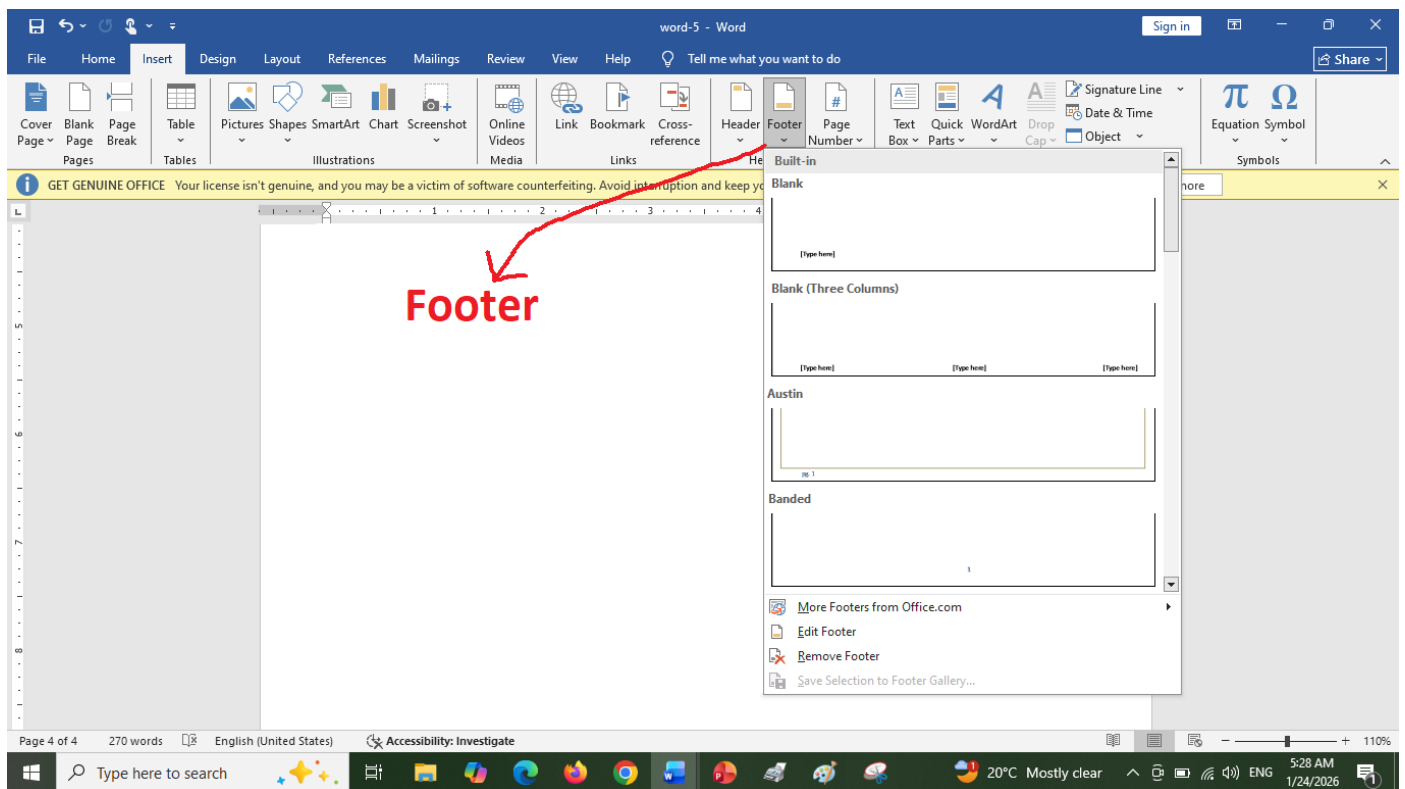

Header

- Adds text or objects to the top margin of each page.
- When you click Header, word shows built-in-styles (Blank, simple, etc) or lets you edit a custom header.
- Common uses :→ Document title, Chapter name, company name, running heading.

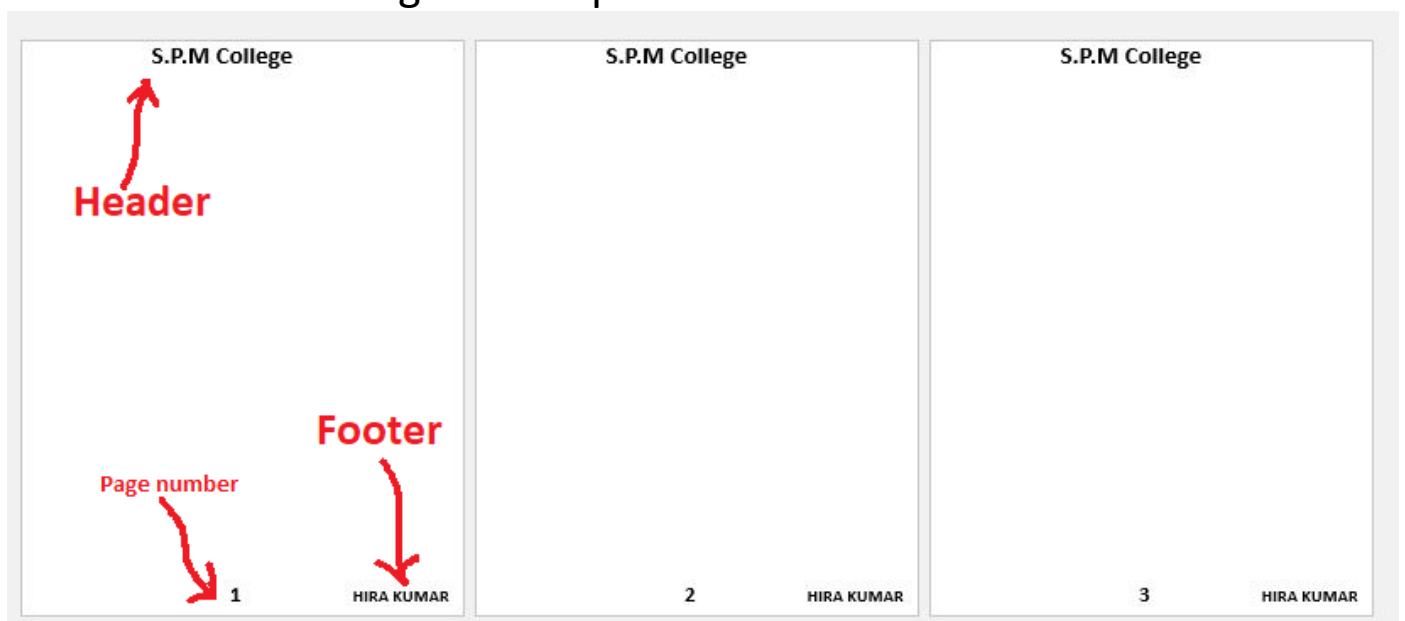

Footer

- Adds text or objects to the bottom margin of each page.
- When clicking footer opens ready-made layouts or lets you design your own.
- Common uses :→ Page Numbers, copyright text file name, notes,...

Page number

- Insert automatic page numbering.
- You can place numbers:- At the top of the page, At the bottom, In margins, At the current cursor position.
- It can change number format (1,2,3 or I,ii,iii,...)
- Start numbering from a specific number.

❖ Header & Footer tab

- When clicking Header, Footer or Page number, and choose any option then new tab open its called Header & Footer tab.

Header & Footer Group

HIRA KUMAR

- Already explain above. 🙌

Insert Group

Used to add extra information inside header or footer.

i. **Date & Time**

Insert today's date or time.

Can update automatically when the file is opened.

ii. **Document Info**

Inserts properties such as:- Author, File name, Path, Title, Subject

iii. **Quick Parts**

Inserts reusable blocks like: Auto text, Fields, Document Properties.

iv. **Picture**

Inserts an image or logo in the header/footer.

v. **Online Picture**

Inserts images from the internet.

Navigation Group

Helps you move b/w header and footer sections.

i. **Go to Header**

Moves cursor to header area.

ii. **Go to Footer**

Moves cursor to footer area.

iii. **Previous/Next**

Jumps to header/footer of previous or next section in the document.

Options Group

Controls how headers and footers behave across pages.

i. **Different First page**

First page header/footer is different from rest.
Used for title pages.

ii. **Different Odd & Even pages**

Different headers/footers for left and right pages.
Useful in book-style printing.

iii. Show document text

Displays the main document while editing header/footer.

Position Group

Controls spacing from top/bottom.

i. Header from Top

Sets distance of header from top of page.

ii. Footer from Bottom

Sets distance of footer from bottom.

iii. Insert alignment tab

Sets alignment of header and footer.

Close Group

i. Close Header and Footer

Exits header/footer editing mode and returns to normal document view.
