Mailings Tab

- In Ms-word, the mailings tab is mainly used for mail merge-that is sending the same document (letter, notice, certificate, label, etc) to many people with different names/addresses automatically.

The mailings tab is divided into these main groups:

1. Create Group

This group helps you create special documents like envelopes and labels.

Envelopes

- Used to design and print envelopes.
- You can add: Delivery address, Return address.
- Useful for office letters.
